ACDE EUROPE, new member of EDA

8/07/2019

ACDE EUROPE is a manufacturer and distributor of advanced attachments for the construction, demolition, recycling and forestry market that was founded in 1994.

The company supplies attachments, parts and systems for hydraulic excavators from 1 to 200 tons.

Through an extensive network of specialists in Europe and beyond, ACDE EUROPE provides both under its own registered brand name and OEM products.

ACDE EUROPE has supplied a range of the top brands of demolition and recycling equipment as a dealer for almost 25 years, like Mantovanni Benne, Rammer, Okada, Socomec and Atlas Copco-Epiroc.

Dissatisfied with quality, execution, parts supply, support and organization, ACDE EUROPE developed in 2017 an own production line of hydraulic breakers, cutters, pulverizers and shears in addition to the existing demolition sorting, tree and stone grapples.

Additionally, ACDE EUROPE distributes in Europe the products of the following manufacturers:

- Beilite, China, hydraulic hammers in range from 70-11000 kg
- Taguchi Guzzilla, Japan, demolition attachments from 100- 6000 kg

With the expertise from the past, the key points are:

- Value for money
- Simplicity
- Spare parts availability
- Support with experience
- Standardization
